Discussion Board will be meeting to review zoning maps and online mapping for the Town of Winthrop.

The board had trouble connecting the online mapping to the large projector. As the board attempted to look at a small monitor, to match to the physical paper town maps, we realized this would be much simpler to do alongside with Joel, for real time changes. The board also decided that this project would most likely be more efficient if a smaller group spearheaded this with Joel. Don Mattice & Richard Dorey volunteered to meet with Joel during the week separate from the rest of the board. Times will be TBD.

Other Business:
